## WEB & MOBILE MODE

## Why buy a system when you can invest in a *platform*?

Allow customers to quickly and painlessly order and pay online for pickup and delivery from any web-enabled device.

NorthStar was created by a restaurant industry leader and custom-tailored for food service. We have compiled the best of the best into one complete POS platform.

### Speed

#### Web Optimized Ordering

- Mobile optimized menus and images
- Loads and responds quickly
- Guests order from any device
- Orders go directly to the kitchen
- Guests control ordering experience
- Multiple menus available
- Automatic prompts for combos
- Large graphics to increase craveability
- Pay and tip online
- Email receipt or pickup with order

### Flexibility

#### Stay in Touch Anywhere

- Stay in touch with customers from their home or office
- Guests order takeout or delivery
- Automatic upsell opportunities
- Additional branding opportunity
- Fully managed in the Cloud
- Customizable to match your brand
- Full menu item descriptions
- Works on any web-enabled device

### Ease of Use

#### Intuitive & Simple

- No coding required, comes customized to match your brand
- Guests can access your menu anytime, anywhere
- View store locations with maps
- Built-in integration with your store's POS system and reporting
- Order directly online
- Pay securely online
- Order from the entire menu
- Graphical interface

It's time to stop waiting for your Point of Sale system to catch up.

Find your way to faster service and smarter, more efficient staffing.
